Faculty Positions as Assistant Professor/Associate Professor (Synthetic and Systems Biology) at the Center for Genomic Sciences.

The Center for Genomic Sciences (CCG, http://www.ccg.unam.mx) of the National Autonomous University of Mexico (UNAM, located in Cuernavaca, Morelos) is seeking outstanding candidates for two tenure-track faculty positions at the level of Assistant / Associate Professor. Applicants must have a Ph.D and postdoctoral experience (at least two years); rank will be commensurate with experience. The successful applicants must have a track record of quality scientific accomplishments in the area of Synthetic and Systems Biology (working with bacteria, simple eukaryotes or plants).

Responsibilities will include the development and maintenance of original, collaborative, externally funded research programs as well as teaching undergraduate and graduate students. These activities will be carried out in a new group on Synthetic and Systems Biology at CCG.

Interested candidates should submit electronic files of the following:

- A cover letter that includes research interest / experience, as well as a list of the most relevant papers.
- *Curriculum vitae*,
- Electronic files of all published papers
- Three letters of reference
- A possible research project to be carried out in the Center (in no more than 10 pages)

Compressed files must be sent to: Secretaría Académica, CCG (sacad@ccg.unam.mx).

Applications will be received until **May 2, 2014**. By **May 13, 2014**, candidates for these positions will be invited to come and give a seminar and to have an interview with the academic staff and authorities of the Center. Both seminars and interviews will occur between **May 26 and June 25, 2014**. All else being equal, we will prefer candidates not older than 36 years old (men), or 39 years old (women).

Successful candidates for hiring will be notified by **July 1st, 2014**. Positions should be occupied starting **September 2014**, but no later than the end of **October, 2014**.
