Faculty Position as Assistant Professor (Bioinformatics) at the Center for Genomic Sciences.

The Center for Genomic Sciences (CCG, http://www.ccg.unam.mx) of the National Autonomous University of Mexico (UNAM, located in Cuernavaca, Morelos) is looking for an outstanding candidate to occupy one tenure-track faculty position at the level of Assistant Professor. Applicants must have a Ph.D and postdoctoral experience of at least two years. The successful applicant must have an excellent scientific track record in the area of Bioinformatics.

Responsibilities will include the development and maintenance of original, collaborative, and externally funded research as well as the teaching of undergraduate and graduate students.

Interested candidates should submit the following documents (electronic files):

- A cover letter that includes research interests and experience, as well as a list of the most relevant papers.
- Curriculum vitae,
- Electronic files of all published papers
- Three reference letters
- A research project that could be carried out in the CCG (in no more than 10 pages)

Compressed files must be sent to: Secretaría Académica, CCG (sacad@ccg.unam.mx).

Applications will be received until October 1st, 2017. By October 16, 2017, candidates for this position will be invited to visit the CCG to give a seminar and to have an interview with the academic staff and authorities of the Center. Both seminars and interviews will occur during November, 2017. In case of equally qualified candidates, candidates not older than 36 (men) or 39 years (women) will be preferred. The successful candidate will be notified by December 6, 2017. Positions should be occupied starting February 2018, but no later than the end of March, 2018.
